	Disruption Action Workflow-AAAL
Step : 1	Keep the inbox active always and check if new mail has come.
Step : 2	No action needed to additional flight - (Additional flight adding new flight for a routes).
Step : 3	When new mail receives, check the below in the mail received from IOC.
A	Scenario such as prepone, postpone, cancelled and so on (Type of Disruption),
B	Flight number,
C	Actual Date and Time (The same needs to be confirmed in Paxlink),
D	Revised Date and Time (Available in Mail itself),
E	Sector,
Step : 4	Pls cross checking whether its for a particular day flight disruption or for future dates. There can be multiple flights in the same mail.
4.1	If its for particular day disruption, the same needs to be actioned then and there itself.
4.2	If its for future dates and for all other scenarios, action to be taken on D-24. (One day before)
	However, details have to be updated in CRM once mail received and to select action status as "PENDING".
4.3	Such Pending cases will be reflected in the Main page of disruption which has to be actioned on D-24 hrs.
4.4	If its cancellation, action has to be taken immediately for the future date flight also.
Step : 5	**Update all the details in Disruption CRM once mail is received. (First Priority).**
Step : 6	Cross check the details in the CRM template with mail once again before actioning in order to ensure there is no mismatches.
Step : 7	Pull out PAX data base and segregate mobile number and Mail ID.
Step : 8	Prepare excel sheet as per the template in Digispice.
Step : 9	Act on SMS for the PNR for which Mobile numbers are available.
Step : 10	Act on Email for the PNR for which Email IDs are available.
Step : 11	Move the actioned mails to Folder named "Actioned" to avoid confusion.
Step : 12	**Cross check once again if all the communication gone to PAX are ACCURATE without fail.**
