Appendix 'A'

Name of person receiving threat message at the Call Centre & signatures	Time of call / mail (IST)	Date of call / mail (DD-MM-YYYY)
Message: (Caller's exact words)		

WHERE IS THE BOMB / WHAT KIND OF THREAT IS IT?

Terminal	**Fuel storage facility**	**Cargo area**	**Aircraft operator offices or maintenance area**	**Other**
Aircraft	**Flight number**	**Departure / Arrival**	**Going to / Coming from**	
Did the caller appear to be familiar with the aircraft or building when describing the location? **YES / NO**				

WHEN WILL IT EXPLODE / WHAT WILL BE THE IMPACT?

Time	Day	Date
In flight? Yes/No	**If moved? Yes/No**	**Other**

WHAT DOES IT LOOK LIKE / WHAT IT IS?

Briefcase	Shopping/carrier bag	Suitcase
Box/parcel	Other (describe)	

WHO ARE YOU?

Name	Organization
Where are you now?	Other (describe)

WHY ARE YOU DOING THIS?

BACKGROUND DETAILS (Tick appropriate answer)
Origin of call

Local	Long distance	Internal (from within building)	Public telephone/ cellular/ mobile

Caller's identity

Gender	Approximate age	Languages spoken

Voice characteristics

Loud	Soft	High-pitched	Deep
Raspy (Harsh)	Pleasant	Other	

Speech

Fast	Distinct (Clear)	Stuttering (Difficulty while speaking)	Slurred (Drunk)
Slow	Distorted	Nasal	Other

Background noise

Noisy	Quiet	Trains	Aircraft
Street traffic	Voices	Office machines	Factory machines
Kitchen	Party atmosphere	Animals	Music
Mixed (describe)			

Accent

Local	Not local	Regional	Foreign

Manner

Angry	Calm	Irrational (Illogical)	Rational (logical)
Intoxicated	Laughing	Deliberate (Intentional)	Emotional
Obscene	Other (describe)		

Command of language

Excellent	Good	Fair	Poor

1. PURPOSE & INTRODUCTION

Threat calls in most cases are received on telephones of various agencies / departments functioning at the airport and in some cases in their offices located in the city like call centre. It is therefore of utmost importance that all Executives, Officers, Managers and Heads engaged in providing air transport services, Duty Manager of air carriers, officials of Aviation Security Guards and other agencies are aware as to how to handle such calls tactfully and effectively.

It may please be noted and ensured that under no circumstances shall the information leading to any kind of threat be suppressed by anyone without its evaluation by the Bomb Threat Assessment Committee (BTAC) or any other security agency. Suppression of such information may lead to disastrous consequences in terms of loss of lives / property and may lead to commission of an offence. No threat call should be ignored and action must be taken immediately. All the citizens have certain social responsibilities and obliged to save lives and the recipient should take the call and act swiftly to save human lives.

Bomb / other threat - A communicated threat, anonymous or otherwise, which suggests, or infers, whether true or false, that the safety of an aircraft in flight or on the ground, or any airport or civil aviation facility or any person may be in danger from an explosive or other item or device.

2. SCOPE

Characteristics of Bomb / other threat:-

Bomb / other threats may be directed against:

a) Aircraft on the ground or in the air.
b) Airport installations, facilities and buildings; or navigation aids or in the immediate vicinity of the airport.
c) Air cargo designated for shipment by air or cargo installations, facilities and buildings.

3. RECEIPT OF BOMB / OTHER THREAT

Bomb / other threat via telephone, E-mail, Fax, etc. may be received by call centre, airports, aircraft operators and cargo agents either directly from the people issuing the threats or from intermediaries, for example, the media or press agencies. In either case, recipients should try to obtain as much information as possible about the threat in order to facilitate assessment of it and identification of the person giving the call.

To facilitate the collection of information, as per regulatory authority, call centre, aircraft operators and airports shall install call recording and caller ID facilities on appropriate exchanges and /or telephones. Likewise, Call centre must ensure to have telephones with caller ID facilities. When a threat call has been recorded, the recordings should be retained as evidence. These details should be provided to BTAC / security agency as per the format given in Appendix ‘A’.

Each and every threat call received will be reported by the receiver (ISPL) of such a threat to the Regional Coordinators / Security Staff by possible means immediately after filing up the attached form. The concerned Regional Coordinators in turn will inform the Airport Director / Chief Operating Officer of the Airport immediately to summon the BTAC / security agency in order to evaluate the threat and decide upon the appropriate action to be taken as specified.

Bomb Threat Assessment Committee (BTAC) is a recognized apex body at the airport empowered to evaluate every threat call and take appropriate action as laid down as deemed necessary without reference to any higher outside agency. BTAC categorizes the received calls as Specific/ Non specific thereby obviating the need for unnecessary drills in many situations without causing considerable delay.

4. TRAINING AT CALL CENTRE

a) Don't disclose the location of the call centre to anyone.
b) Staff at the call centre that are likely to receive threats calls must be briefed on the action they will be required to take, and also the responses required from them which should be incorporated into appropriate staff instructions.
c) Supervisors / TLs should be similarly made aware of the response required and of the need to relay information about threats to coordinator / security control numbers of respective stations / region.
d) Threat Report Form to be placed on the soft board at each workstation for easy access.
e) The call centre shall maintain a list of all important telephone numbers like police, Regional Coordinators, Operation Control Centre and Security Hqrs. at call centre. The numbers must be displayed on soft board / intranet of the CSRs and Team Leaders for quick reference.

5. ACTION BY RECIPIENTS OF A THREAT: -

The order, in which the questions are asked, is important as the caller may hang before all the questions can be asked.

6. RESPONSIBILITIES

Any threat call received by anyone at the call centre should not be ignored and proper threat procedure should be followed.

Chief Security Officer, Operations Control Centre and Regional Coordinators may be contacted in any Emergencies on the following numbers:-
